**SilverCut-250**

## Hand cutting torch for gas mixing cutting nozzle

The SilverCut-250 is a hand cutting torch for gas mixing cutting nozzles. This well balanced and safe hand torch utilizes a triangular tube configuration for greater strength.

The KOIKE gas mixing nozzles reduce flashbacks and protect the cutting torch from damages. By changing the cutting nozzles, the gas type can be changed (acetylene, propane, mapp gas or natural gas).

- Gas mixing hand cutting torch
- Rigid triangular tube configuration

### SilverCut-250

Cutting range	3-250 mm
Torch head	90°
