

SMART 140 MMA BATTERY

MMA Inverter process welding equipment

Ref.: 22300140BT

Code: FT22300140BT

Date: 09-03-2021 V0

Description:

New, innovative, self-contained, battery-powered stick electrode welding equipment. Ideal for those jobs where portability is essential and no power supply is available in the work area.

Use:

Ideal for MMA welding, for use in metal carpentry, maintenance, repairs...

Main Advantages:

- Welding of electrodes, normal, basic and stainless steel.
- High capacity battery and short charging time.
- Portable design for easy transport.
- Overheating protection
- Easy to read battery level indicator.
- High intensity illumination lamp
- Intelligent ventilation system (eco-fan)

Accessories:

Includes:

- Earth Clamp Cable
- Electrode Holder.
- Lithium Battery.
- Battery Charger.

Basic technical characteristics

Welding Process	MMA
Storage Battery	Lithium
Charge System	230 V Battery Charger
Rated Power	3,7 KW
Welding Current	10 – 140 A
Type of electrodes	Rutile E-6013 – Inox 316L Basic E-7018
Welding Capability	Ø 2,5 mm 70 Electrodos Ø 3,25 mm 30 Electrodos
Battery Power	48 V / 4200 mAh
Charge Time	3,5 Horas (10 A)
Battery Cycle	1000 ciclos – 5,5 años
Weight	21,6 Kg
Dimensions	460 x 15 x 350 mm

NORM UNE-EN 60974. (1)
